LOADED WITH INNOVATION. TO CARRY THE MOST PUNISHING LOADS.

Our first-in-class breakthrough – a truck body and bed made from high-strength, military-grade, aluminum alloys – trims weight to help create a 2016 Ford F-150 that accelerates forcefully. Stops quickly. And leads its class in maximum towing and payload capacity, as well as gas EPA-estimated highway fuel economy.¹

We collaborated with experts to formulate this metal. Then we made it stronger. It doesn't rust. It resists corrosion. It's dent- and ding-resistant. In other words, it's engineered to stand up to punishment.

To carry all this material innovation, we created the strongest frame ever in an F-150. High-strength steel now comprises up to 78% of its fully boxed, modular frame. This incredibly sturdy metal infuses the 8 rugged crossmembers (5 are through-welded) and large cross-section frame rails. Enhancing stiffness. And durability.

Since the truck weighs less, you can haul more. Tow more. And do it all more efficiently. That's just a smarter way to work. And play. The 2016 Ford F-150.

¹EPA-estimated gas rating: 19 city/26 hwy/22 combined mpg, 2.7L EcoBoost[®] 4x2. Actual mileage will vary.

☆☆☆
5 SAFETY RATING¹
☆☆

THE SAFEST F-150 EVER.

The 2016 Ford F-150 received the government's highest safety rating for every cab configuration: a 5-Star Overall Vehicle Score¹

To help reduce crush into the passenger compartment in certain front, side and rear impacts, a masterful mix of high-strength, military-grade, aluminum alloys works together with a unique frame structure. A patented 12-sided design in the high-strength-steel front-frame horn helps improve front-impact protection, helping dissipate crash energy. Additional through-welded crossmembers bolster side-impact protection. An extruded rocker reinforcement helps reduce cab intrusion in certain front- and side-impacts, while roof strength is reinforced by a hydroformed roof rail supported by an extruded closed-section roof bow.

First-in-class inflatable rear safety belts² for outboard occupants join 6 standard airbags to enhance driver and passenger protection. To reduce injury risk in certain collisions, the fully inflated rear safety belt distributes crash energy across 5 times more of an occupant's body than a non-inflatable safety belt.

Add to your peace of mind with the knowledge that AdvanceTrac[®] with RSC[®] (Roll Stability Control[™]) is standard on every F-150. Providing enhanced vehicle stability in a wide range of conditions, the system selectively applies individual brakes and modifies engine power to help keep all 4 wheels firmly planted.³

¹Government 5-Star Safety Ratings are part of the U.S. Department of Transportation's New Car Assessment Program (www.safercar.gov). ²Available feature. SuperCrew[®] only.
³Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.

BUILT FORD TOUGH®. TO ENDURE THE MOST IMPORTANT TESTS OF ALL.

Yours. We know what you do to your trucks. At work, you punish them. Loading. Hauling. At play, you push them. Mudding. Pulling the heaviest of loads. So it's good to know you're starting with a truck that has already passed our toughest tests.

Built Ford Tough is our measure of long-lasting durability. And this is the most tested Ford F-150 ever. It's so tough, in fact, that we had to develop new ways to test it. From acidified spray to the unforgiving heat and abrasive sand of Baja, this truck's been to hell. And back.

Engineered for the long haul, F-150 endured over 10 million cumulative miles of testing before the first truck rolled off the line. We applied these same standards to the F-150 engine lineup, which has proven itself over millions of miles of harsh lab and real-world testing. The result?

Ford F-Series has more full-size pickups on the road with 250,000 or more miles than any other full-size truck.¹ So from sunrise to sunset, you can count on F-150 to tow, haul, work and play like no other. No wonder F-Series has been America's best-selling truck for 38 years.

XLT SuperCrew® 4x4. Ingot Silver. 20" aluminum wheels. Available equipment.

Try to avoid water higher than the bottom of the hubs and proceed slowly. Refer to your Owner's Manual for detailed information regarding driving through water.

¹Based on vehicle registration data and latest odometer readings available to Polk for 1992 and newer model year full-size pickups still on the road in the U.S. as of 04/01/15.

HIGHLY EFFICIENT. HUGE CAPABLE.

Equip the 2016 Ford F-150 with our 2.7L EcoBoost® V6¹ and a class-best gas EPA-estimated highway fuel economy rating² of 26 mpg is yours. But there's more to it than that.

This high-output, direct-injection twin-turbo

"Pocket Hercules" pumps out 325 hp and 375 lb.-ft. of torque, so you'll have up to 8,500-lb. max. towing capacity.³ Plus, up to 2,210-lb. max. payload capacity.³ It's fuel efficiency – that works.

Strength and durability come from compacted graphite iron (CGI) that forms the upper engine block and cylinders. It's the same material used in our rugged 6.7L Power Stroke® V8 Turbo Diesel engine, allowing the block to be smaller, lighter and stronger. The lower block and cylinder heads are made of aluminum to save weight.

To optimize fuel usage, Auto Start-Stop is standard with the 2.7L and can shut off the engine when the truck comes to a complete stop. When the brake is released, the engine restarts immediately. Tuned specifically for rigorous truck applications, Auto Start-Stop will not intervene when F-150 is in tow/haul mode, 4-wheel drive (4WD) and other circumstances that require the engine to drive essential accessories.

A WIDE RANGE OF POWERFUL CHOICES.

Finding smarter, more efficient ways to get the job done defines F-150. With 4 available engines, all deliver on exceptional efficiency. Without compromising capability.

2 EcoBoost® engines¹ deliver remarkably balanced performance, blending potent low-end torque with impressive efficiency. The 3.5L direct-injection, twin-turbo can tow a class-leading 12,200 lbs. The 2.7L showed its mettle early by completing the Tecate SCORE Baja 1000 off-road racecourse. Both are ready to handle whatever you throw at them. After all, Ford EcoBoost engines now power over 800,000 F-150 trucks.

By improving power-to-weight ratios from the previous generation,² each F-150 engine can devote more power to your job. But that's not all. Light-weighting helps improve their fuel efficiency as well. As does twin independent variable camshaft timing (Ti-VCT). Plus Active Grille Shutters that can close at cruising speed to reduce drag. A new sport mode on the standard 6-speed automatic transmission, and available SelectShift® capability, make that power easy to engage.

A class-exclusive CNG/Propane Gaseous Engine Prep Package readies your V8-equipped F-150 to be upfit for compressed natural gas (CNG), propane autogas, or as a bi-fuel vehicle with the ability to seamlessly switch between CNG or propane and gasoline.³

3.5L TI-VCT V6

This highly capable standard engine is designed for impressive power and durability. Twin independent variable camshaft timing (Ti-VCT) provides torque across a wide rpm range, as well as exceptional efficiency.

ROAD MANNERS. BY THE TRUCKLOAD.

F-150 delivers “on-road manners... far better than some cars we’ve driven,” says fourwheeler.com. Its high-strength-steel frame provides torsional rigidity. High-strength, military-grade, aluminum alloys reduce weight. And a double-wishbone, independent front suspension and optimized tuning help smooth out rough spots.

A refined brake system adds stopping confidence. Electric power-assisted steering (EPAS) supplies precise road feel. Staggered outboard rear shocks add stability. The result? A driving dynamic that inspires trust – whether the cargo bed is empty or when working.

For enhanced control going into turns, standard Curve Control¹ can sense when you’re taking a turn too fast. When it does, the system can slow the truck’s speed by as much as 10 mph in about a second to help you maintain control.

Maintain your lane with help from our Lane-Keeping System.² It can detect lane markings with a forward-facing camera, and can send vibration pulses to the steering wheel and apply steering torque, if needed, to prompt you to steer back toward center. There’s also a Driver Alert System that warns you in the message center if it detects you could use a break from driving.

WE MADE IT EASY TO TAKE YOUR TURN.

Pro Trailer Backup Assist™¹ for the 2016 Ford F-150 is segment-first technology that makes the challenge of backing up a trailer easier than ever. At a crowded job site, into a garage, or almost anywhere.

Leveraging advanced camera technology with electric power-assisted steering (EPAS), Ford engineers developed this trailer backing system and tested it for almost a decade. Along the way, 5 patents have been granted and another 10 patents are pending.

To operate the system once programmed, rotate the control knob to indicate how much the system should turn the trailer. Pro Trailer Backup Assist then automatically steers the truck to turn the trailer the desired amount. The system may limit vehicle speed to enhance the comfort and control over a variety of road surfaces.

The result: less time to back up a trailer with improved confidence. It even helps trailer-towing experts back up a trailer by reducing time lost to maneuvering mistakes.

TOW MORE THAN ANYONE ELSE.

With its high-strength-steel frame, torque-heavy engines and advanced technologies, the 2016 Ford F-150 helps keep your trailer where it belongs. In line. Helping you tow more. And sweat less.

Class-best max. towing capacity of 12,200 lbs.¹ is yours when you equip Ford F-150 with the 3.5L EcoBoost[®] engine² and Max. Trailer Tow Package.

Towing confidence in every cab type is enhanced by the stabilization benefits of standard trailer sway control³ and an integrated trailer brake controller.²

To maintain a consistent speed on steep grades, lock out upper gears with the progressive range select on our 6-speed SelectShift[®] automatic transmission^{2,4} with tow/haul mode. For use when the truck is heavily loaded or when towing, which should be often with the 2016 F-150.

To prevent you from rolling back on a grade, standard hill start assist momentarily maintains brake pressure until the engine delivers enough torque to move F-150 up the hill. Trucks equipped with the trailer brake controller can automatically apply the trailer brake too.

Strategically placed cameras.¹ Ultrasonic sensors.¹ Sophisticated radar.¹ F-150 can employ them all to help you navigate a crowded job site, avoid collisions, monitor blind spots and much more.

Get a 360° view around F-150 with our class-exclusive 360-degree camera with Split-view Display.^{1,2} It works at low speeds in Forward and Reverse.

4 cameras¹ let you see all sides on the 8" color screen¹ centering the instrument panel. A front or rear view fills the left side. The 360° view is on the right. Control what you see by pushing the "camera" button above the display. Visual guides help you see how close you are to objects so that you can avoid them.

Easily line up truck and trailer thanks to the black dashed line and curved white lines of dynamic hitch assist. A Smart Trailer Tow Connector¹ provides instrument cluster alerts about trailer connection status, along with lighting and trailer battery alerts and warnings. If something needs attention, you'll know.

Monitor blind spots with BLIS® (Blind Spot Information System) with cross-traffic alert.^{1,2} An amber light in the sideview mirrors³ helps warn you when a vehicle is there.

Get a heads-up from class-exclusive adaptive cruise control and collision warning with brake support.^{1,2} It helps maintain your choice of 4 preset gaps from the vehicle in front of you. It can alert you to a potential collision by flashing a warning on the windshield and sounding an alarm. It also pre-charges the brake system.

In addition to class-best max. payload, innovative features make accessing and managing your load incredibly convenient in a 2016 Ford F-150.

Our industry-first remote tailgate release¹ with power remote locking opens the tailgate with your key fob. Lock, unlock and lower it, hands-free. When activated, the tailgate gradually lowers to a flat position.

LED cargo box lighting¹ smartly illuminates the cargo box with forward-facing LEDs. Turn them on, along with additional cargo lamps centered above the rear window, with a switch in the bed or on the headlamp control in the cab. The additional illumination helps you quickly find tools or other items, so you'll spend less time rummaging around and more time getting the job done. They're particularly helpful with a tonneau cover.¹

Class-exclusive BoxLink™¹ with locking cleats brings smart functionality to your pickup box. First, box sides are fortified to allow you to tie down items to the walls. Interface plates inside the box allow you to attach S hooks, E-Track™ straps and so much more. 4 removable and lockable premium cleats provide additional tie-down points to securely and flexibly tie down your cargo. You choose what's best for you.

Class-exclusive stowable loading ramps¹ help you ramp up with ease. After attaching the ramps securely to the tailgate, you can load dirt bikes and ATVs simply and easily – without having to lift them into the bed. When done, stow the ramps with the BoxLink system. You can also utilize the BoxLink interface plates when using the bed divider.¹

¹Requires 2.7L EcoBoost Payload Package. ²Requires Heavy-Duty Payload Package and 17" wheels. ³Requires Heavy-Duty Payload Package and 18" wheels. ⁴Requires Max. Trailer Tow Package.

Towing Notes: Maximum loaded trailer weights shown. Do not exceed trailer weight of 5,000 lbs. when towing with bumper only. The combined weight of the towing vehicle (including options, hitch, passengers and cargo) and the loaded trailer must not exceed the GCWR (Gross Combination Weight Rating). Trailer tongue load weight should be 10-15% of total loaded trailer weight. Make sure that the vehicle payload (reduced by option weight) will accommodate trailer tongue load weight and the weight of passengers and cargo added to the towing vehicle. The addition of trailer tongue load weight, and the weight of passengers and cargo, cannot cause vehicle weights to exceed the rear GAWR (Gross Axle Weight Rating) or GVWR (Gross Vehicle Weight Rating). These ratings can be found on the vehicle's Safety Compliance Certification Label. See the RV & Trailer Towing Guide for requirements, restrictions and 5th-wheel towing.

Follow Ford:

New Vehicle Limited Warranty. We want your Ford F-150 ownership experience to be the best it can be. Under this warranty, your new vehicle comes with 3-year/36,000-mile bumper-to-bumper coverage, 5-year/60,000-mile Powertrain Warranty coverage, 5-year/60,000-mile safety restraint coverage, and 5-year/unlimited-mile corrosion coverage on aluminum body panels – all with no deductible. Please ask your Ford Dealer for a copy of this limited warranty.

Roadside Assistance. Covers your vehicle for 5 years or 60,000 miles, so you have the security of knowing that help may be only a phone call away should you run out of fuel, lock yourself out of the vehicle or need towing. Your Ford Dealer can provide complete details on all of these advantages.

Ford Credit. Get the ride you want. Whether you plan to lease or finance, you'll find the choices that are right for you at Ford Credit. Ask your Ford Dealer for details or check us out at fordcredit.com.

Ford Extended Service Plan. For a purchase or lease, the Ford Extended Service Plan (ESP) gives you peace-of-mind protection designed to cover key vehicle components and protect you from the cost of unexpected repairs. Ask your dealer for a Ford ESP, the only service contract backed exclusively by Ford and honored at all Ford dealerships.

Insurance Services. Get Ford Motor Company quality in your auto insurance. Our program offers industry-leading benefits and competitive rates. Call 1-877-367-3847, or visit us at fordvip.com for a no-obligation quote. Insurance offered by American Road Services Company (in CA, American Road Insurance Agency), a licensed agency and subsidiary of Ford Motor Company.

Ford Original Accessories will be warranted for whichever provides you the greatest benefit: 24 months/unlimited mileage, or the remainder of your Bumper-to-Bumper 3-year/36,000-mile New Vehicle Limited Warranty. Ford Licensed Accessories (FLA) are warranted by the accessory manufacturer's warranty. FLA are designed and developed by the accessory manufacturer and have not been designed or tested to Ford Motor Company engineering requirements. Contact your Ford Dealer for details and/or a copy of all limited warranties.

Comparisons based on competitive models (class is Full-Size Pickups under 8,500 lbs. GVWR based on Ford segmentation), publicly available information and Ford certification data at time of release.
