CAPABILITY. SELECT YOUR DRIVE MODE.

NORMAL
You'll probably spend the most time here. Ideal for everyday driving on wet or dry paved roads. A balance of excitement and convenience.

SLIPPERY
For better handling on surfaces covered with ice, water, grass or gravel, this mode adjusts the pedal response and traction control.

ECO
Exactly as it sounds. Eco helps maximize efficiency and increase driving range.

SPORT
Increases throttle response, provides quicker shifts for a more aggressive feel, and allows the transmission to hold shifts longer to help accelerate faster when shifting. For more "sporty" on-road driving.

DEEP SNOW/SAND
Adjusts the transmission shift schedule, pedal response, traction control and driveline configuration for better handling in deep snow or sand. Included with available Intelligent AWD only.

Ford Escape® lets you create the drive experience you desire, or the one that conditions demand, with easy-to-use Selectable Drive Modes. Choose your mode and the system adjusts traction control, steering and pedal response, and available Intelligent AWD to help provide a remarkable driving experience. 3D animations (shown at left) on the available 12.3" digital instrument cluster change based on the drive mode you select.

Plug-in Hybrid¹ models feature 4 EV modes, allowing you to decide how you want to use the electric power. In Auto EV, the vehicle decides whether to run on gas or electric power. EV Now mode is for all-electric operation. EV Later preserves plug-in energy for later use. In EV Charge mode, drivers can continue to charge the battery while driving, and generate electric-only miles to use later, such as during city driving.

A blue Ford Escape is shown from a front-three-quarter view, driving on a paved road that curves through a forest. The scene is captured during the "golden hour" of sunset, with warm sunlight filtering through the trees and creating a soft glow. The car's headlights are on, and its reflection is visible on the road surface. The background shows a dense forest of tall trees, some with autumn-colored foliage.

INSPIRATION. REDISCOVER JOY EVERY DAY.
